Mateas Emil Andrei, Web Developer

Experienced Frontend Web Developer with a strong background in Javascript, CSS/SASS and web development. With a Bachelor's degree in Automation and Applied Informatics, I have worked on various web applications, including building and implementing designs, implementing booking systems and handling data from multiple APIs. I have a keen eye for detail and strive for excellence in both design and code writing. As a team player, I have collaborated effectively with colleagues to deliver successful projects. I am driven to continuously learn and grow in my role, seeking new challenges and opportunities to expand my knowledge. Looking for exciting projects and the chance to work with a dynamic team.

Employment History

Frontend Web Developer at Gloobus

June 2021

Currently, I am working as a Frontend Web Developer at Gloobus. In this role, I am responsible for designing and developing web applications, utilizing JavaScript, CSS, and other technologies. I collaborate with cross-functional teams to gather requirements, create user interfaces, and implement new features. I also have experience in building and implementing complex booking systems, handling data from multiple APIs, and ensuring a seamless user experience.

- Designed and developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility and responsiveness across different devices and screen sizes.
- Collaborated with backend developers to integrate frontend functionality with APIs, ensuring seamless data flow.

Optimized web applications for performance and speed, improving the overall user experience.

Template Designer at JUBILEE DESIGN SRL-D

September 2013 — November 2014

As a Template Designer at JUBILEE DESIGN SRL-D, I was responsible for designing templates for various projects. This included creating visually appealing designs and layouts using visual design skills and implementing them using HTML, CSS, and other technologies.

- Designed visually appealing templates for various projects, ensuring a consistent and professional look and feel.

- Implemented designs using HTML and CSS, ensuring cross-browser compatibility and responsiveness.
- Collaborated with clients to gather requirements and provide design solutions that met their needs.
- Worked closely with the development team to ensure seamless integration of the templates into the final products.
